PROFESSIONAL SUMMARY

ML engineer bridging the gap between research and production. 5 years of experience deploying NLP and computer vision models at scale using MLOps best practices.

EXPERIENCE

ML Engineer VinAI Research · HCMC	2021 – Present
- Productionised Vietnamese NLP models serving 10M daily requests. - Reduced model inference latency by 3x via TensorRT quantisation. - Built end-to-end MLOps pipeline: data → training → serving → monitoring.	
AI Engineer FPT AI · HCMC	2019 – 2021
- Trained OCR model for Vietnamese ID card extraction (99.1% accuracy). - Deployed face recognition system for 50+ enterprise clients.	

CORE SKILLS

Python · PyTorch · TensorFlow · MLflow · Kubeflow · FastAPI · OpenCV · ONNX · Triton Inference Server · Ray

EDUCATION

M.Sc. Artificial Intelligence – HCMC University of Technology (2019)

CERTIFICATIONS

- Deep Learning Specialisation (deeplearning.ai)
- GCP Professional ML Engineer
